

HMK TECH

PATENTED SYMPATEX MEMBRANE: INTELLIGENT AND EFFECTIVE

The secret of the high-tech Sympatex membrane is in its novel molecular structure. Unlike conventional micro-porous membranes, its structure is non-porous, because pores allow moisture to penetrate materials. Furthermore, detergent residues, dirt and salt crystals can clog pores and thus affect the durability of the membranes. The Sympatex membrane has a non-porous structure and is therefore 100% waterproof and 100% windproof. It consists instead of billions of hydrophilic (water loving) molecules that use a physiochemical process to quickly expel moisture. In other words, the Sympatex membrane offers optimal breathability and is extremely durable.

Intuition Sports boot liners have come a long way since their start in 1991. Intuition liners are the premium boot liner in the market today. Intuition understands to be truly comfortable, the liners must fit properly. At Intuition Sports, they have designed the most comfortable boot liners in the world to meet the demands at all levels. All of their liners are made from 100% ULTRALON™ EVA foam - a proprietary foam developed exclusively for Intuition Sports and specifically designed to be moldable, flexible and durable for users at all skill levels. The liner is molded into a three dimensional shape conforming to the foot on its interior and the boot shell on its exterior surface. Intuition products are used by some of the best riders in the world, including extreme freeriders, National Snocross racers, professional instructors and back-country tour guides. These people virtually live in their boots all day so they demand the best performance and comfort possible from their equipment.

www.intuitionsports.com

Glove Like Fit: Boa provides custom comfort with smooth, even closure and no pressure points.

Powerful Secure Closure: Once locked into place, Boa reels and laces stay that way.

Micro-Adjustability: Boa reels offer infinite degrees of fine tuning.

On-The-Fly: Get easy, one-handed adjustment even with gloves on.

Fast: Quick on. Quick off. Boa saves time when seconds count.

Lightweight: Boa Closures shed water, mud, and ice, shaving precious weight.

Boa Technology guarantees the Boa Lacing Systems reel and laces for the lifetime of the product.

www.boatechnology.com

The Vibram brand is the worldwide leader in high performance soling products for outdoor, using rubber compounds with excellent traction and high abrasion resistance, that are lightweight, long-wearing and flexible.

www.vibram.us

The Grip Light sole was chosen to meet the needs of the HMK team riders. What did they ask for? Lightweight, traction throughout the backcountry and on the track, stability on the running boards, and cushion for hard landings.

HMK partnered with Vibram, the company that invented the rubber lugged sole for mountain sports back in 1927. The Vibram Grip Light - exclusively at HMK in 2016-17!

Keep it Fresh Technology™ Products using the AEGIS technology are protected against odor,

staining, and deterioration caused by bacteria, fungus, and other microorganisms. The AEGIS Microbe Shield technology is integrated into textile products at the manufacturer and lasts as long as the products themselves. Because AEGIS never leaves, it is always there providing the protection you expect, where you expect it to be.

The unique technology is durable without the use of heavy metals and does not leach onto you or into our environment.

WARRANTY:

All HMK Boots are covered by a one year limited warranty. This limited warranty covers materials and/or workmanship found to be defective (as determined by the manufacturer) within 12 months from the date of purchase. Products found to be defective will be repaired or replaced as determined by the manufacturer.

For all warranty requests and questions contact HMK at (541) 386-3262

You must obtain a return authorization number for all warranties.
