Risk Racing Seal Doctor

\$27.95-H

The Risk Racing Seal Doctor removes the dirt that typically causes a leaky fork seal...And you can do it right at the track or on the trail!

The majority of fork seals leak due to dirt being trapped in the seal. Obviously this leak will affect the suspension tuning of your bike. It can also soak your front brake pads creating unsafe riding conditions.

Just snap the Seal Doctor on your fork tube, insert it into the leaky seal and twist. The design of the Seal Doctor maintains the proper position and angle as you rotate around your fork tube. It effortlessly pulls the dirt out of the fork rather than pushing it deeper into the fork.

Risk Racing Mud Axe

860-00122

\$21.95-H

The Risk Racing Mud Axe is specifically designed to make the task of removing excess mud from your dirt bike, quad or UTV quick and easy. The head of the Mud Axe is shaped to make swift work of fenders as well as hubs and wheels, which is important in reducing rotating mass. The pick on the other end of the Mud Axe is perfect for clearing foot pegs, brake pedals, engine bays, suspension linkages, and any other tight spot that mud finds its way into. The ergonomic "arched" design of the body is great for scraping the inside of your fender while keeping your hand out of the muck. The over-molded rubber handle on this tool ensures a firm and comfortable grip.

- Constructed of a heat resistant glass reinforced plastic composite. This makes it extremely durable and safe to use on hot engines and exhaust.

Risk Racing FLEXiT Light

860-00115

\$39.95-H

The FLEXiT Light is a hands free flexible LED task light. It's ultra-thin, flexible silicone body allows an unlimited amount of light projections. The durable Shape-Loc™ frame makes it easy for users to bend, fold, wrap, stick or hook the FLEXiT around objects to position and aim the light. FLEXiT uses 16 Lumen Tech™ LEDs with three light functions (low, med, and high) that can be bent into positions to create a focused spot or a broad flood light. The durable ABS base holds 3 AA batteries (included), the electronic switch and circuit, two large neodymium (rare earth) magnets, and a loop to hang or mount the light. The FLEXiT is 0.85" thick, 7" wide, and 13" tall.

Light Mine Professional

860-00114

\$26.95-H

The functionally designed protruding posts can be used as tripods or quad-pods creating a 360 degree freestanding light. Eleven powerful neodymium (rare earth) magnets are located the end of each post allowing the user to attach and aim the light accurately and securely in any direction. Powerful Lumen Tech™ LEDs are used in the front white lens (8 LEDs) and back red lens (4 LEDs). The Light Mine Professional has four electronic light functions; low power spot, high output flood, red night vision, and a high visibility hazard light.

- Powered by 3 easily replaceable AAA batteries (included).

Magnetic Light Mine

860-00105

\$ 8.95-K

It has an intensely bright, wide angle LED and 12 powerful rare earth (neodymium) magnets that allow you to stick it to any steel surface, or rest it on any surface, and aim the light towards the workspace at almost any angle.

It also works as a "pick up" tool for dropped screws, nails and hardware.

- Powered by three alkaline button cell batteries (included).

Disposable Nitrile Work Gloves

610-177728
