PRO GRIP #791 Triple Density

\$19.95-J

- Firm on the inside, gel outside, medium in the middle
- Riders are always looking for solutions of SOFT GRIPS that don't slip on the bar. The rule in grip design is that the softer the material the more the grip will slip against the bar. ProGrip decided to design an even stronger inner sleeve to help minimize grip movement. And so, the first TRIPLE DENSITY GRIP was born.

FMF GRIPS

FMF MX Velocity Grips

\$19.95-J

The Velocity grip's half waffle area has a base of firm high tack rubber compound. Built into the grip in the palm area is a soft gel anti-vibration palm pad. Diamond shaped knurling covers the non-waffled area of the Velocity grip to improve grip to glove traction and relaxes the riders grip for less arm pump.

FMF 909 Ergo Grips

\$19.95-J

The 909 Ergo grips are specifically designed to contour with the natural shape of your hand. The 909 Ergo grip is a half waffle design, available in single or dual compound rubber. The single compound grip is made of a very soft, but high wear black rubber. It's compliant on the hands yet firm enough to last.
