

NEW PRODUCT

NEW Ski Doo PTO Bearing Buddy Snowmobile Kit

Fits Ski Doo Rev and XP - 600 and 800cc Models

Lube clutch-end crank bearing anytime with NO clutch removal. Keeping your main PTO crank bearing lubricated may well increase your engine's life. The New PTO Bearing Buddy Kit replaces the seal and the seal retainer and allows you to grease the bearing externally. Kit features a pressure release valve that releases built up air pressure into the atmosphere instead of blowing out a seal.

Kit comes complete with detailed instructions and is available with or without pre-filled grease injector.

PTO Bearing Buddy Complete Kit with pre-filled grease injector
Part # 564-0001 Retail \$149.95-H

Pre-filled Grease Injector
Part # 564-0002 Retail \$ 34.95-H

PTO Bearing Buddy Kit (without pre-filled grease Injector)
Part # 564-0003 Retail \$125.95-H
