

UTV ELECTRIC POWER STEERING KITS

Kits are an easy add on to UTV's without Electronic Power Steering.

- Simple in design and lighter in weight.
- Provides fuel economy and energy efficiency.
- Eliminates the need of a power steering pump, hoses, hydraulic fluids hoses, hydraulic fluids and a drive belt and pulley on the engine.
- Kit includes Torque Sensors, Electronic Control Unit, Assist Motor, Nuts & Bolts, and Wiring Connection Kit (no soldering required).
