CABLE PARTS AND ACCESSORIES

Ignition Cable Saver

722-9034

Ignition Cable Saver is a innovative solution for preventing and restoring sticky throttle and clutch cables. The Cable Saver maintains proper spacing for the cables and eliminates the possibility of twisting or kinking.

- Restores the "new" cable feeling to your throttle or clutch
- Prevents improper routing issues such as twisting or kinking
- Black in color

Throttle Cable Extension Kit

724-8150

- Adds 10" of length to stock throttle cable.
- Allows the installation of riser blocks
- Universal Cable ends allows the cable extension to be used with most brands

Universal Inner Speedo Cable Kit

724-9001

- 100"
- Universal
- Will fix a couple of cables.
- Kit includes cable inner wire, tips and tool to install new tips.
