FLY ATV ALUMINUM BARS

781-2080

\$49.95-J

- Polished Aluminum
- Manufactured from 6061-T6 Aircraft Aluminum
- Knurled center sections for secure mounting
- Reduced rider fatigue by absorbing impact shock and vibration
- Striped bar pad included

FLY 1010 ATV CARBON STEEL BARS

781-1599

\$27.95-J

- .083 walled carbon steel construction
- Quality seamless tig welding (heliarc)
- Knurled sections for secure mounting

FLY AERO TAPERED 1 1/8" BARS

781-4001

\$99.95-H

- Width 803, Height 95, Rise 56 & Sweep 57
- Constructed of aircraft grade 7075 taper walled aluminum
- 1-1/8" diameter at the clamp, which tapers to a standard 1/8" to accept grips and controls
- Bead blasted surface for added strength
- Laser accurate steering
- Just enough flex to dissipate shock and reduce rider fatigue

UNIVERSAL BAR MOUNT KIT

781-6000

\$71.95-H

- Extruded and CNC machined construction
- Fits 1 1/8" bars
- Stainless steel mounting studs

CRUISE CONTROLS

649-18

649-20

UNIVERSAL VISTA CRUISE CONTROL

This cruise control has a ring assembly that fits over the top of the grip. This ring assembly connects to an arm that goes over the top of the switch housing. The other end of the arm connects to a clamp that attaches to the handlebar between the throttle housing and the switch housing.

- Fits the majority of motorcycles available to date.
- Made of glass filled Zytel nylon and chrome plated metal for great durability.
