

## CARBIDE PERFORMANCE MOTO GLOVE

\$36.95-H

These innovative, lightweight gloves are sewn with the fingers in a pre-curved position, to prevent tightening of the gloves as the rider flexes and bends their fingers to grip the handlebars more tightly in those intense moments pushing for the holeshot. The Carbide Motocross Gloves also feature reinforced thumb panels to make them more durable, allowing them to hold up against heavy abuse when the rider is competing in a race, trail riding deep in the woods, or practicing on a local track.

- Lightweight, flexible, and reliable; but also reinforced, durable, and aggressive
- Made of 3D Stretch I-Span which allows for superior movement and airprene fabric for maximum breathability
- Silicone Coated Single-Layer Palms and Fingertips for the best possible gripping potential
- Lycra knuckle reliefs provide the rider with increased flexibility

\* **FOR PROPER FITMENT WRAP A FLEXIBLE TAPE MEASURE AROUND THE WIDEST PART OF THE HAND. DO NOT INCLUDE YOUR THUMB**

HAND WIDTH	SIZE	TCI PART #
5 - 7"	X-Small	476-00124
7 - 8"	Small	476-00125
8 - 9"	Medium	476-00126
9 - 10"	Large	476-00127
10 - 11"	X-Large	476-00128
11 - 12"	2XL	476-00129

## THROTTLE ASSEMBLIES - NO GLUE REQUIRED!

### Throttle Assembly and Grip System 100% NO-SLIP GRIP!

**LEFT CONTROL GRIP:** No need for safety wire or Grip Glue with Python Gripping System with Steel Lock-tight Band Built in Steel "Safety Band" Lock System=100% NO-SLIP GRIP!

**RIGHT THROTTLE GRIP:** Throttle tube made of Proprietary Carbon Fiber Compound for Optimum durability & Speed Control. Throttle Grip is molded directly on Patented throttle tube
