

BOYESEN WATER PUMP COVERS AND IMPELLER KITS

SuperCooler Water Pump Covers and Impeller Kits

The Boyesen Supercooler Water Pump Cover and Impeller Kit increases coolant flow at all RPM ranges to keep your engine cooler and make more power.

- Patented Nautilus style impeller for 40% more hydrodynamic efficiency
- 2-piece cast aluminum construction makes it lighter and more tolerant during manufacturing

Hy-Flo Water Pump Cover

Designed by Boyesen Engineering to increase water flow and reduce hydraulic friction for a cooler, more constant temperature.

- Less horsepower loss during the late stages of a race
- Water pump covers feature a super tough, powder-coated finish that resists weathering and wear & tear

Water Pump Impeller

Designed by Boyesen Engineering to increase water flow and reduce hydraulic friction for a cooler, more constant temperature

- Less horsepower loss during the late stages of a race
- Impellers are designed to minimize cavitation

BOYESEN QUICKSHOT 2 ACCELERATOR PUMP COVER

QuickShot 2 Accelerator Pump Cover

The QS2 accelerates fuel delivery while eliminating troublesome trapped air that can cause bog and hesitation. Provides 25% more fuel capacity plus added bleed capability allows for solid fuel delivery 100% of the time. No modification required - simple bolt-on.

- Superior to stock accelerator pump covers
- 25% more fuel capacity
- High volume check valve
- Stops hesitation and bog
- Accelerates fuel delivery
- Instant response to throttle movements
- Improved low end performance
- Reduced hot engine stalling

BOYESEN COVERS

Boyesen Clutch Covers

Factory Racing Clutch Covers are cast in aluminum and powder coated for long lasting performance and protection. Factory Covers are guaranteed not to warp and are individually surfaced for a perfect, leak-free fit.

- Cast from the highest quality aluminum
- Covers come with gasket
- Seals perfectly to keep out dirt and moisture
- Cover gaskets may be used with stock or Factory covers

BOYESEN IGNITION COVERS

Boyesen Factory Ignition Covers

Stock plastic ignition covers warp due to high heat and pressure from mounting screws. This allows water and dirt to enter your starter assembly causing corrosion of the ignition and premature wear of the crank seals. Boyesen Factory Ignition covers are cast in aluminum and powder coated for performance and protection and are guaranteed not to warp.

The replacement Ignition cover gasket includes one nitrile bound gasket.
