

## K&N CRANKCASE VENT FILTERS

### Steel Base

Steel base crankcase vent filters have vent tubes added to their base. Filters consist of a one piece design with a rubber or chrome top. Filters with mounting studs can be mounted remotely, but require vent hoses and clamps. Filter mounted direct can be pressed into rubber grommets in valve covers. All base plates are chrome plated. Tubes are zinc.

*One Piece Design for Competition Use*

with stud - chrome top

w/o stud - rubber top

## K&N PERSONAL WATERCRAFT AIR FILTER

The K&N Flame Arrestor makes the best air-filtration technology available for marine engine use. The heart of the K&N Flame Arrestor is the cotton gauze media that is used in standard filter elements and is designed for more horsepower. This Air Filter purifies airbourne impurities both near and offshore, especially in fresh water environments. Coast Guard Regulations stipulate that all gasoline-powered watercraft be equipped with flame arrestors.
