

SADDLEBAGS

Cs4

CS4 SADDLEBAGS

- Saddlebags are made of waterproof, maintenance-free synthetic leather
- Cs4 saddlebags are detachable by means of a lockable click system
- No pre-drilled holes! You can custom mount your bags to suit your bike.
- Interiors of the Cs4 saddlebags are reinforced with PVC to help keep the shape of your saddlebag.
- Most Cs4 saddlebags come with "traditional" rust-free buckles, combined with hidden quick release buckles, and the side flaps are closed with velcro for maximum protection against the rain.
- Brackets sold separately

Attention: Be sure that there is at least 8 cm (3 1/2") between the bottom of the bags and the exhaust!

K-DRIVE SADDLEBAGS

- Saddlebags are made from Iparex 1100 - a very strong synthetic leather. It has a luxury leather look and is one of the best materials for saddlebags. It is strong, waterproof and doesn't need any maintaining.
- All bags are reinforced with PVC on the inside. They have a rigid backside on which the click system is mounted.
- Classic "HC" bags with straps and rust free buckles.
- Lockable "CL" bags. These bags can be locked with a small key and have one strap.
- All buckles, logo and decorative studs are made of "Zomack", which is 100% rust free.
- Brackets sold separately

Lockable Slant Bag

K-DRIVE LOCKABLE BAGS DON'T HAVE THE TRADITIONAL STRAPS. THEY ARE CLOSED BY A LOCK THAT IS HIDDEN UNDER THE FLAP. THE LOCK, BY MEANS OF A SMALL KEY, ITSELF CAN BE CLOSED. THEY USE A SMALL "LUGGAGE STYLE" KEY. THESE BAGS HAVE A SINGLE BUTTON FASTENER THAT WILL HOLD THE SADDLEBAG LID DOWN WHILE RIDING AT SPEED.

- 2 keys to lock the bags are included
- Brackets sold separately

CLICK AND LOCK TECHNOLOGY (CS4 AND K-DRIVE)

CLICK & LOCK SYSTEM IS FIXED TO THE SADDLEBAG GUARDS BY MEANS OF A LOCKABLE CLICK SYSTEM

THE CLICK AND LOCK SYSTEM HAS MANY ADVANTAGES:

- Rigid backside on which the Click & Lock System is mounted, specifically for each type of motorcycle
- Bags are easily mounted and removed in just a few seconds
- Bags themselves are locked to the motorcycle with a key.
- Bags don't touch the bike and therefore don't damage it.
- The lock is located on the inside of the bags.

CS4 AND K-DRIVE SADDLEBAG FEATURES

Discreet "sliding" handle

Doubled edges give the bags a "luxury" look

Flap front, side and bottom are PVC reinforced

Side flaps, close with velcro for maximum rain protection

Bottom of bag is protected with a heat protective textile.

AAEN GAUGES

AAEN BATTERY CHARGE KIT

544-P10641

Your EFI is dependent on good voltage to function properly. If the voltage drops, the standard charging circuit will not be able to supply enough charge to keep the voltage up. The "Supercharge Kit" consists of an electronic box that senses low battery voltage, and then supplies additional charge from the separate accessory circuit.
