## SUPERBIKE BARS

### 909 BFB BAR BY PRO TAPER

794-0023

The 909 BFB bar uses Easton's aluminum technology (7075 T-6 cold forged aluminum)

- Reduces arm pump and rider fatigue by reducing handlebar flex.
- Mini Handlebar

## FLY HANDLE BARS

### FLY AERO FLEX BARS

- 2014 American aluminum
- 2014 material allows greater flex through bumps to reduce arm pump
- Titanium color cross-bar & clamps glued/bolted to bar for positive control

### FLY ATV ALUMINUM BARS

781-2080

- Polished Aluminum
- Manufactured from 6061-T6 Aircraft Aluminum
- Knurled center sections for secure mounting
- Reduced rider fatigue by absorbing impact shock and vibration
- Striped bar pad included

### FLY 1010 ATV CARBON STEEL BARS

781-1599

- .083 walled carbon steel construction
- Quality seamless tig welding (heliarc)
- Knurled sections for secure mounting

### FLY AERO TAPERED 1 1/8" BARS

781-4001

- Width 803, Height 95, Rise 56 & Sweep 57
- Constructed of aircraft grade 7075 taper walled aluminum
- 1-1/8" diameter at the clamp, which tapers to a standard 1/8" to accept grips and controls
- Bead blasted surface for added strength
- Laser accurate steering
- Just enough flex to dissipate shock and reduce rider fatigue

### UNIVERSAL BAR MOUNT KIT

781-6000

- Extruded and CNC machined construction
- Fits 1 1/8" bars
- Stainless steel mounting studs

### RISK RACING ERGO WAVE GRIPS KIT 709-00109

The New Risk Racing Ergo Wave Grips are a high quality, Dual-Compound soft grip with a reinforced grip end and an ergonomically designed grip flange. The "wave" in the flange is designed to reduce pressure and heat on your hands to reduce blisters.

Kit comes with mounting glue system.

### RISK RACING MUD OVER GRIPS

709-00139

The Mud Grip is a grip cover that allows riders to maintain control of their bike when riding or competing in muddy conditions. The Mud Grip enables riders to keep a tight grasp by making the grips feel dry, even on the nastiest tracks or trails. Slide over your grip when riding in mud or rain and the mud grip makes a slippery grip feel dry.

- Ultra thin design does not affect grip diameter
- Mud Grips can be washed after use and re-used

## ATV, PWC & SLED HANDLEBAR GRIPS

### ERLANDSON PERFORMANCE GRIPS

- Improves handlebar grip for any snowmobile, ATV, or water-craft rider.
- Fits over stock thin handwarmers.
- Has outside end plug for additional support.
- Designed with safety in mind.

## HEATED GRIPS FOR MOTORCYCLE

### KOSO TITAN HEATED CRUISER GRIPS

The New Titan custom bike or cruiser heated grips are perfect to warm you up with their 5 level heating function. The external controller with a 5 color LED display allows you to quickly know in which heat level the grips are set. These grips are easy to adjust the temperature level without removing your hands from the handlebar for a safer ride. The Titan heated grip also features Koso's "Low voltage warning" that will automatically turn off the heated grips in case the voltage goes under 12 V, and it's "Short circuit protection" will help avoid damages to the control by cutting off power to the grips in case of short circuit.

- Available in chrome or black finish.

| PART #  | DESCRIPTION                             | FINISH |
|---------|-----------------------------------------|--------|
| 709-050 | Fits 7/8" & 1" bars with twist throttle | Black  |
| 709-051 | Fits 7/8" & 1" bars with twist throttle | Chrome |

### KOSO TITAN X HEATED GRIPS FOR HARLEY DAVIDSON MOTORCYCLES

Power on and adjust the temperature of the Titan-X heated grips with Koso's innovative thumb switch design. Made of aluminum and high quality soft to the touch rubber, these heated grips are offered in a chrome or black finish. These grips will take the love for your Harley to the next level.

The Titan-X heated grips feature an integrated 5 temperature level thumb switch which provides riders the ability to easily change the temperature of the grips without removing their handles from the handlebars. The 5 color LED display allows the easily see which temperature setting is currently being used. The Titan-X grips also feature a low battery voltage protection. If the battery voltage becomes low the Titan-X grips will automatically shut off in order to preserve battery power.

- Choose throttle type (electronic or cable throttle) and finish (chrome or black finish)

### KOSO APOLLO HEATED GRIPS FOR MOTORCYCLES

709-042

The Apollo heated grips are designed with an integrated adjustable thumb switch, which allows them to easily fit on any kind of motorcycle. The integrated thumb switch gives the opportunity for the rider to adjust the temperature level without removing his hands from the handle bar for a safer ride. Its wide temperature setting range will keep the rider comfortable under the cold riding conditions. Integrated thumb switch designed for easy installation and setting.

- 7/8" & 1" handlebar
- "Plug & Play" wiring connections to shorten the installation time.
- Wide temperature settings for cold weather conditions.
- Low Battery Warning protect to ensure the motorcycle have enough power to start.
- 5 color LED Indicators for the rider to quickly know in which heat level the grips are set.

### KOSO MULTI ADJUSTABLE HEATED GRIPS FOR MOTORCYCLES

The Multi Adjustable heated grips will keep your hands warm even in the harshest cold weather conditions. The external controller featuring a simple dial and an LED lite background allows you to simply choose your level of temperature even at night. These grips also feature a "low voltage cut off protection" which will automatically detect the voltage of you machine and automatically shut off the heated grips if the voltage falls under 12V.

- Twist Throttle Applications for Cruiser, Sport Bike or Scooter applications.

| PART #  | DESCRIPTION           |
|---------|-----------------------|
| 709-036 | Fits 7/8" & 1" bars   |
| 709-041 | Fits 1" & 1 1/8" bars |

## HEATED GRIPS FOR MOTORCYCLE

### KOSO 5 LEVEL MOTORCYCLE HEATED GRIPS

By using "low voltage protection" technology, the heated grips will automatically turn off if ever the voltage goes under 12V in order to avoid draining the battery. On top of that, the "short circuit protection" will help avoid damages from occurring to the controls by cutting off power to the grips, in the occurrence of a short circuit. These grips also provide an internal memory that will allow them to heat up quickly to the previous level, which will warm your hands in no time!

- Twist Throttle Applications for Cruiser, Sport Bike or Scooter applications.

| PART #  | DESCRIPTION           |
|---------|-----------------------|
| 709-039 | Fits 7/8" & 1" bars   |
| 709-040 | Fits 1" & 1 1/8" bars |

### KOSO MX-1 SNOW / DIRT BIKE HEATED GRIPS

709-049

Designed specifically for dirt & snow bikes. The aggressive lock on diamond pattern grips made of high quality materials will be sure to keep your hands glued to the grips all while keeping them warm and comfortable at the same time.

- Universal fitment, includes interchangeable throttle cable cams. Designed to fit majority of dirt/snow bike models
- Requires 35 W of power / pair and draws 2.5 A / pair at maximum level. These requirements need to be met in order to achieve maximum efficiency of the grips
- Includes 2 clamp-on grips, no adhesive required for installation External controller for temperature adjustment
- Integrated low volt cut-off system, prevents accidental battery power loss
- Kit includes all parts needed for installation

## HEATED GRIPS FOR ATV & SNOWMOBILES

### KOSO SNOWMOBILE / ATV APOLLO HEATED GRIPS

709-031

Apollo Heated Grips 7/8" + 7/8" Handlebar for Snowmobile and ATV feature an integrated 5 temperature level thumb switch which provides riders the ability to easily change the temperature of the grips without removing their hands from the handlebars.

- Integrated temperature level thumb switch allowing to easily navigate through the temperature settings
- Universal fitment designed to fit all ATV and snowmobile models
- "Plug & play" wiring connections for easy installation
- 5 temperature levels to choose from
- 5 color LED indicator to display which temperature setting is currently in use
- Low battery cut off protection

### KOSO MULTI ADJUSTABLE HEATED GRIPS FOR ATV AND SNOWMOBILES

709-032

The Multi Adjustable heated grips will keep your hands warm even in the harshest cold weather conditions. The external controller featuring a simple dial and an LED lite background allows you to simply choose your level of temperature even at night. These grips also feature a "low voltage cut off protection" which will automatically detect the voltage of you machine and automatically shut off the heated grips if the voltage falls under 12V.

- Thumb Throttle Applications
- Comes with heated thumb

Thumb Throttle

### KOSO 12V HEATED HAND MUFFS

709-060

Designed specifically for ATVs. to keep your hands warm and comfortable.

- Requires 35 W of power / pair and draws 2.5 A / pair at maximum level. These requirements need to be met in order to achieve maximum efficiency of the grips
- External 5 level controller for temperature adjustment
- Integrated low volt cut-off system, prevents accidental battery power loss
- Kit includes all parts needed for installation

### KOSO HEATED THUMB KIT

709-033

### KOSO GRIP GLUE

709-034

### HIDDEN WIRE HOT GRIPS

No more wire running down the handle bars to get hooked and broken. The electrical wire for the grips is hidden inside the grip and is designed to feed through the center of the handlebars where it is protected. These grips are O.E.M. replacements on Arctic Cat and Ski-Doo brands.

| COLOR   | PART#    |
|---------|----------|
| Purple* | 710-5304 |
| Green*  | 710-5307 |

### POLLY HEATER HI-LOW MOTORCYCLE KIT 710-4166

This kit contains heaters which have a dual heat setting; however, they are different from the snowmobile kit because they are manufactured to run slightly cooler. In addition this kit contains a metal bound switch, and various additional items to facilitate installation. The heaters are 5/8" in diameter and 2.030" long. There is a retaining clip welded on to the cartridge which can be adjusted for a snug fit. They operate with 12 VAC or 12 VDC drawing approximately 3 amps for both heaters (1.5 amps per heater) on both heat settings. They can be installed on any motorcycle that has a handlebar with an inner diameter measuring more than 5/8", and a regulated electrical system.

## UNDER GRIP HEATER KITS OR ELEMENTS

### UNDER GRIP HEATER

710-4170

Easy installation. Remove grips, wrap heating elements around the handlebars and replace

- Includes 2 Grip Heater Elements, Resistor and Hi/Off/Low Toggle Switch
- Arctic Cat OEM - 0636-611, Bombardier OEM - 410.1072.00 and Polaris OEM - 2460247

### REPLACEMENT OR OPTIONS SWITCHES SEE PAGE 283

### REPLACEMENT ELEMENT ONLY

710-4175

- 2 piece set
- 12 volt, 20 W, wire length 490 mm

### REPLACEMENT RESISTOR

710-1666

- 12 Volt/10 Watt/2 ohms

### SKI-DOO STYLE ELECTRIC UNDER GRIP WARMER 710-6005

Grip Heater for Ski-Doo Formula Models and Ski-Doo Tundra Models

- Includes Heater Elements, Toggle Switch, Quick Connectors and Crimps
- 12 Volt, 7.5 A and 15 A
- Replaces OE 861-5025-00

### HIGH POWER GRIP HEATER ELEMENTS FOR ALUMINUM BARS

- Hi power grip heater elements
- 3 wire high/low applications. Also works on Polaris models with low/medium/high switches.
- Great for aluminum handlebars
- Universal design works on all 12 volt snowmobiles
- 3M self adhesive backing for easy installation onto handlebars.
- Sold per pair

## THUMB WARMER KITS

### BACKSIDE MOUNT THUMB WARMER KIT 710-6001

- Contains **on/off** lighted switch
- Mounts to backside of the throttle lever, best for plastic sled thumb throttles
- Fits any OEM style throttle lever
- Low voltage draw (less than a tail light)

### FRONT MOUNT THUMB WARMER KIT

- Contains **high-low-off** switch
- Works best on metal thumb throttle like ATVs
- Easy to install

- 12V/10W/2 ohms

### REPLACEMENT SWITCH ASSEMBLY

709-0251

- Toggle switch with 20" wire
- Replacement Switch for SPI Heated Grip and Deluxe Heated Grip
- Handle bar mount

### THUMB WARMER

709-0241

- Designed specifically to be used with SPI Deluxe Heated Grip 709-024

## GRIP WRAP GEL GRIPS

### RSI GRIP WRAP GEL GRIPS

Self adhesive grip tape to fully wrap your handlebars and hooks with a seamless finish. High traction outer synthetic rubber keeps grip even when wet or cold. Zorbicon Gel absorbs vibration for a smoother feel at the handlebars.

- 46 1/4" long to accommodate all grips over the hook handlebar set ups. Works with grip heaters.
- Self adhesive back requires no glue.
- Sold per pair.

Black Gel Grip Wrap (pair)

781-4300

Camo Gel Grip Wrap

781-4301

## MX GLOVES & PAL PROTECTORS

### CARBIDE PERFORMANCE MOTO GLOVE

These innovative, lightweight gloves are sewn with the fingers in a pre-curved position, to prevent tightening of the gloves as the rider flexes and bends their fingers to grip the handlebars more tightly in those intense moments pushing for the holeshot. The Carbide Motocross Gloves also feature reinforced thumb panels to make them more durable, allowing them to hold up against heavy abuse when the rider is competing in a race, trail riding deep in the woods, or practicing on a local track.

- Lightweight, flexible, and reliable; but also reinforced, durable, and aggressive
- Made of 3D Stretch I-Span which allows for superior movement and airprene fabric for maximum breathability
- Silicone Coated Single-Layer Palms and Fingertips for the best possible gripping potential
- Lycra knuckle reliefs provide the rider with increased flexibility

**FOR PROPER FITMENT WRAP A FLEXIBLE TAPE MEASURE AROUND THE WIDEST PART OF THE HAND. DO NOT INCLUDE YOUR THUMB**

| HAND WIDTH | SIZE    | TCI PART # |
|------------|---------|------------|
| 5 - 7"     | X-Small | 476-00124  |
| 7 - 8"     | Small   | 476-00125  |
| 8 - 9"     | Medium  | 476-00126  |
| 9 - 10"    | Large   | 476-00127  |
| 10 - 11"   | X-Large | 476-00128  |
| 11 - 12"   | 2XL     | 476-00129  |

### PALM PROTECTORS

Motocross and trail riders are all too familiar with blisters. Palm Protectors are a very thin, protective layer offering full coverage protection of the palm as well as the saddle area between the index finger and thumb. The Palm Protectors also aid in reducing the dreaded "Arm Pump" by absorbing vibration transferred through the handlebars. Worn under the gloves, riders don't even notice the ultra thin Palm Protectors, but they do recognize the vibration reduction and much needed protection against blisters.

- sold in pairs

| SIZE            | TCI PART # |
|-----------------|------------|
| Small / Medium  | 476-00116  |
| Large / X-Large | 476-00111  |

## OPTIMA CLUTCH AND LEVER SET

Lever set (w/ dust boot, nylon mounting bushing, and cable adjuster)

Optima O.T.P Right Hand Hot Shot

### OPTIMA CLUTCH LEVER SET

- Injection molded dust cover and barrel end
- New on-the-fly cable adjuster with spring loaded detent
- Nylon mounting bushing
- New lightweight CNC machined bar clamp
- Top loading hardware
- Extra thick lever pivot
- Hot start button features the same aggressive knurling found on the Optima clutch cable adjuster.
