

## REUSABLE AIR FILTERS ATV / MOTORCYCLE

### IGNITION REUSABLE AIR FILTERS

- Pre-Oiled and ready to go
- Improved air flow for additional
- Gloves included with each filter
- Dyno Tested - Up to 2 more horsepower
- 6 month warranty

# MOTORCYCLE POWER KITS

## MAIN JET

K&N develops its' main jets to correctly serve two functions; Static load and Dynamic load. The static load is the fuel recieved through the main jet in the upper gears, where the tachometer is moving very slow. The dynamic fueling portion of the main jet is the amount of fuel recieved in the mid-range portion of the power. For example, you have a GSXR1100 G with #130 main jets. You install #125 mains. After running the bike you notice the top end has improved but the mid-range doesn't pull as well. You then install #135 and you can tell the mid-range is great but the top end is slower. This is a common compromise when using the stock main jets and needles. When you install K&N #130 mains, you will get the good mid-range power of the #135 and the good top end of the #125. This is because the K&N main has a venturi design more consistent to the engine's needs.

## MAIN AIR JET

This jet allows air into the emulsion tube to mix with fuel being drawn up from the float bowl. It controls the amount of fuel which can be pulled from the float bowl into the venturi. The larger the size of the main air jet, the more air you get and the less fuel. The smaller the main air jet, the more fuel you get and the less air. K&N alters this only to achieve the flattest possible fuel delivery curve.

## NEEDLE JET (Emulsion Tube)/Needle Cap

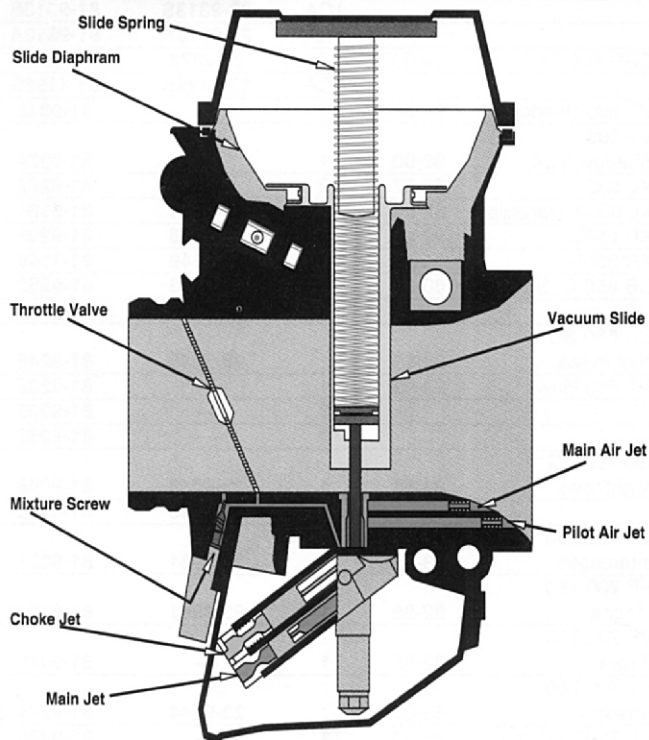

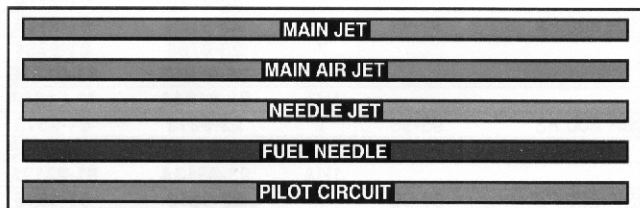

Many newer bikes have very flat power and fuel delivery curves when used with stock exhaust and air-box. When aftermarket pipes are used, the power curve is usually not flat. You usually need to lean out for low speed and richen up for top end, or leaner on the top end and richer at low speed. In order to achieve full function and drivability, K&N uses shrouds or cap style nozzles for adjusting the upper or lower top end. These also have an effect similar to fuel injection by breaking up the fuel as it enters the air-stream.

## FUEL NEEDLE

The design of the needle is where most of the R&D time is spent. The needle is designed to give the correct amount of fuel throughout the mid-range and is also designed to allow adjustments from groove 1 to groove 6 with little or no effect below 3000 rpm. With the correct end dimensions, the needle will have little effect on the main jet regardless of needle position. This isolates all circuits from each other and ensures easy set-up of the mid-range and drivability.

## PILOT CIRCUIT

This controls 100% of the engine idle and 25% of the transition onto the needle. K&N has found that the engine will idle with the standard pilot jet, with or without the air-box and with the slides and needles removed from the carburetors, therefore K&N rarely changes the pilot jet. Changing the pilot jet is proof that you are not using the other circuits correctly. Idle and off idle is controlled by the mixture screws and the float level which has the most positive effect below 4000 rpm. On some models the pilot air jet is changed to provide optimum fuel economy. Correct balancing of the carburetors also ensures a smooth idle.

## K & N MOTORCYCLE POWER KITS

\$259.95-J

Intended for motorcycles with a stock or mildly tuned engine using a well designed aftermarket pipe with a modified air box and a K&N stock replacement air filter. These kits are designed for applications where individual air filters cannot be installed and for applications where air box modification improves the engine's performance. In most cases power increases of approximately 8% can be achieved. Kits include: recalibration jet kit and instructions, K&N Filter Charger Air Filter and K&N Re Charger Service Kit.

581-234165  
581-239378

Fits 2000 Yamaha R1  
Fits '99-00 Yamaha R6

**High Performance Straight out of a Box!**

## K & N ATV POWER KITS

The K&N ATV Power Kits are a premier combination of a carburetor recalibration kit, K&N Filter charger air filter, K&N Pre Charger pre-filter and a K&N Recharger service kit. Designed to fit the most popular ATV vehicles, the ATV Power Kits incorporate the latest technology in carburetor jet kit art, delivering a superior level of performance found only in expensive racing ATV's. Each ATV Power Kit will deliver an average of 15% increase in horsepower, improve throttle response while still maintaining optimum fuel economy.

Each ATV Power Kit contains:

- Complete recalibration jet kit, including jets, needle, spring, shims and detailed instructions
- K&N Filter Charger air filter
- K&N Pre Charger pre filter
- K&N Re Charger service kit.

TCI PART # 581-239135

Fits:

Yamaha Banshee YFZ350  
Stage 3 Racing

'87-06

- requires removal of stock air box

## MX X-STREAM FILTER

*With the current rage in 4 stroke technology, the K&N XStream Top Filter has become very popular with Honda, Kawasaki, Suzuki and Yamaha riders. The increased filtration area provides more air-flow while the 4 layers of woven premium cotton media allow for increased filtration. These elements combine to offer optimum air flow for all performance Off-Road motorcycles.*

- Two piece design: proven washable/reusable air filter technology integrated into a 2 piece. High-flow air filter allows an easy installation and cleaning process.
- Larger surface area: pleated cotton filter offers up to 2-3 times more surface area than a foam filter.
- Higher Filtration: 4 layers of woven, surgical grade cotton media provides optimum filtration.
- Perfect Seal: filter's sealing bead is designed for an airtight fit into air box
- Straightened Airflow: epoxy-coated aluminum air mesh incorporated into a backfire screen protects the filter element & assists to straighten airflow.
- Pre-Oiled
- For specific applications go to pages 96 thru to

## ATV X-STREAM POWERLIDS

The ATV X-Stream Powerlid incorporates a K&N High-Flow-Air Filter with an air box lid that is designed to replace potentially restrictive stock air box lids and intake snorkels. Each XStream Powerlid includes a K&N DryCharger and the necessary carburetor jets to properly tune your ATV. For maximum airflow and filtration, use the Powerlid with a K&N OE replacement air filter.

- For ATV Filter and Powerlid Applications see pages 138 thru to

Pre-Charger

Dry-Charger

### K&N Pre-Charger

- Specially designed filter wrap made to extend the service interval of your K&N Filter Charger when used in very dusty conditions.
- Made from durable polyester material containing uniform micron openings
- For K&N Pre-Charger Applications see pages 96 thru to

### K&N Dry Charger

Specifically designed to prevent splashes of water or mud from saturating your K & N Air Filter.

Dry Chargers are water repellent NOT waterproof.

- Made from a durable polyester material that is pre-treated with a proprietary hydrophobic process.
- For K&N Dry-Charger Applications see pages 96 thru to

## K & N UNIVERSAL AIR FILTERS - UNIQUE

### RU-2952 Filter with Dual Oval Mounting Flanges

- Sold in 2-packs
- 2 3/16" x 2 7/8" flanges, 5" x 6" rectangle base, 3 1/4" x 4 1/4" rubber oval top, 4" filter height, 11/16" flange length, 3 1/8" c-c spacing
- See page 107 for applications

## K & N UNIVERSAL AIR FILTER- FOR MODIFIED MINIBIKES

- The original high-flow air filter
- Designed to increase horsepower & acceleration
- Washable & reusable
- Large filtration area provides longer service intervals & optimum airflow

# K & N UNIVERSAL AIR FILTERS - ROUND STRAIGHT

When selecting one of K&N's universal round straight air filters, you should consider the following dimensions as they relate to the specification chart below.

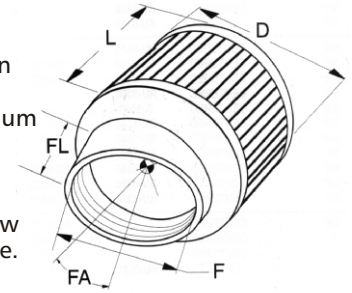

**(F) Mounting Flange I.D** - This is the most critical dimension and should be very close to the diameter of the application's inlet flange. The flange will stretch up to 1/16" for those in-between sizes.

**(D) Filter Diameter** - Overall diameter of the filter. Use the largest diameter practical for maximum filtration.

**(L) Filter Length** - Length of the filter body only. Does not include the flange length. Use the longest filter practical for maximum filtration.

**(FA/FL) Flange Angle and/or Flange Length** - If no angle is listed in the specifications table below then the flange is straight. Angles are listed in degrees and can be utilized when space is an issue.

**(FO) Flange Offset** - Center of the flange is offset from the center of the filter base in order to provide a better fit.

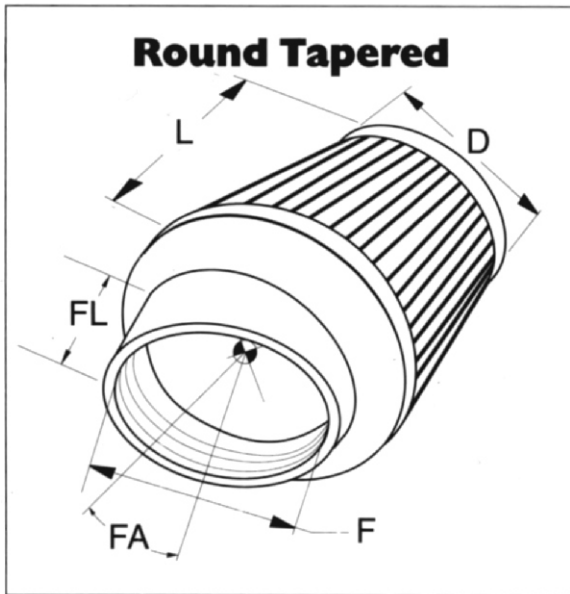

Tci Part #	Flange Inside Dia. (F)	Outside Dia. (D)	Length (L)	Top Style	Flange Length (FL)	Flange Angle (FA)	Flange Offset

# K & N UNIVERSAL AIR FILTERS - ROUND TAPERED (CONE)

## K&N Universal Round Tapered Air Filters

When selecting one of K&N's universal round tapered air filters, you should consider the following dimensions as they relate to the specification chart:

**(F) Mounting Flange Inside Diameter** — This is the most critical dimension and should be very close to the diameter of the application's inlet flange. The flange will stretch up to 1/16" for those in-between sizes.

**(D) Filter Diameter** — This is the outside diameter of the filter. The top size is listed first, then the base size. Always use the largest size filter that is practical for the application.

**(L) Filter Length** — This dimension is the vertical length of the filter body only, it does not include the length of the flange, nor does it take into account the taper of the filter media. Always use the longest filter practical, for maximum filtration.

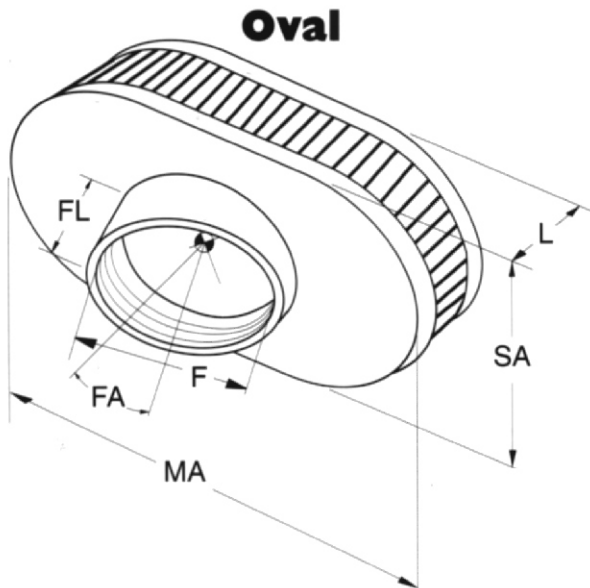

**(FA / FL) Flange Angle and/or Length** — If no angle is listed in the specifications table, the flange is straight. Any angle listed is in degrees and can be utilized when space is a problem.

TCI Part #	Flange Inside Dia. (F)	Base Outside Dia.	Top Outside Dia.	Length (L)	Top Style	Flange Length (FL)	Flange Angle (FA)	Flange Offset
580-RC2540	1.125" (29mm)	2.25" (57mm)	2" (51mm)	2.5" (64mm)	Metal	0.625" (16mm)	0	0" (0mm)
580-RC0790	1.375" (35mm)	2.5" (64mm)	2" (51mm)	2.25" (57mm)	Metal	0.625" (16mm)	0	0" (0mm)

## K & N UNIVERSAL AIR FILTERS - OVAL STRAIGHT

### K&N Universal Oval Air Filters

When selecting one of K&N's universal oval air filters, you should consider the following dimensions as they relate to the specification chart:

**(F) Mounting Flange Inside Diameter** — This is the most critical dimension and should be very close to the diameter of the application's inlet flanges. The flanges will stretch up to 1/16" for those in-between sizes.

**(MA / SA) Filter Oval Dimensions** — This is the length and width of the filter. Always use the largest filter practical to fit the application.

**(L) Filter Length** — This dimension is the length of the filter body only, it does not include the flange length. Always use the longest filter practical, for maximum filtration.

**(FA / FL) Flange Angle and/or Length** — If no angle is listed in the specifications table, the flange is straight. Any angle listed is in degrees and can be utilized when space is a problem.

TCI Part #	Flange Inside Dia. (F)	Outside Dim. (MA)	Outside Dim. (SA)	Length (L)	Top Style	Flange Length (FL)	Flange Angle (FA)	Flange Offset

## K&N AIRFORCE PRE-CLEANER

AirForce Pre-Cleaners were developed for only the dustiest of conditions. Specially designed foam filter Wrap made to extend the service interval of your K&N Filter. Made from large, open cell foam, the Airforce Pre-Cleaner will trap dust and dirt, yet add only a small amount of restriction to the airflow of your air filter.

## UNIVERSAL CLAMP-ON AIR FILTERS

### Universal Clamp-on Filters

- Allows maximum air flow and dependability
- Flex core spring design with a durable urethane mounting base for longer life and better fit
- These Filters are 4 inches long, but are designed to allow for modification as needed.
- Seamless design for maximum airflow
- Opening will reduce to 3/8" smaller than charted I.D. size

### K&N Replacement Rubber Washers

581-0160

Made of 1/8" thick reinforced neoprene rubber. Ideal for thin panels, fenders, number plates, air cleaner lids and other locations that need to be rubber mounted.

- 1 1/4" O.D. x 5/16" hole
- 12 cards per package with 8 washers on each card

## K&N CUSTOM AIR CLEANERS FOR HARLEY DAVIDSON

- K&N custom air cleaners were designed to fit Harley-Davidson motorcycles equipped with various carburetors. The K&N air cleaners are not street legal. The K&N custom air cleaners can increase horsepower with proper carburetor calibration.

### High Flow Air Filters & Filter Assemblies for Aftermarket Assemblies

#### Bendix-Tillotson (Carburetors to 1975) / Linkert (Early 4-Bolt Model Carburetors)

DESCRIPTION	TCI PART #
Replacement Element for RT-320B	580-E3200

#### Keihin Flowmaster ( 2 5/8" Mounting Flange)

DESCRIPTION	TCI PART #
6" Diameter Chrome Bonnet Style Air Cleaners mount directly to carburetor flange	580-RK380B

#### Keihin (Carburetors 1976 & Up)

DESCRIPTION	TCI PART #
5" Diameter Open Round Style	580-RK3201

#### Mikuni 36-38 mm (2 7/16" Mounting Flange)

DESCRIPTION	TCI PART #
5" Diameter Open Round Style	580-RC0850

#### Mikuni 40-45 mm (2 3/4" Mounting Flange)

DESCRIPTION	TCI PART #
Replacement Element for 265-ML092B.so	265-ML0920
4 1/2" x 7" open oval style	580-RC2000
Air Cleaners mount directly to carburetor flange	

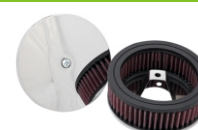

265-ML0920

580-RC2000

#### S&S (Carburetors 1976 & Up excluding all S&S E&G Carburetors)

DESCRIPTION	TCI PART #
5" Diameter Open Round Style	580-RK3201
Replacement Element for for RT-320B	580-E3200

580-RK3201

580-E3200

#### S&S (Replacement Element for Aftermarket Custom Air Cleaner)

DESCRIPTION	TCI PART #
"E" & "G" teardrop housing 2 1/2"	580-E3226

### Twin Air Filter

The air filter on your motorcycle or ATV is the only protection your bike has from the elements. Make sure your motorcycle or ATV is protected with the Twin Air dual-stage off-road air filter.

The Twin Air dual-stage off-road air filter traps even the smallest particles without restricting air flow to offer the best power output without harming the engine. Twin Air filters are designed to increase airflow while ensuring the highest level of protection from dirt/dust.

With fused layers of patented open-pore foam and fine inner foam the Twin Air dual-stage off-road air filter protects from dust, dirt, and sand. The coarse outer Shell catches airborne dirt, grime and sand while the fine inner layer traps the little stuff. The special adhesives used in the construction of the Twin Air dual-stage off-road air filter will withstand repeated cleaning even with harsh solvents.

1. Coarse open-pore foam catches airborne dirt, grime and sand.
2. Fine open-pore inner foam acts as a second filter to trap the smallest particles while ensuring maximum air passage.
3. Exclusively formulated adhesive ensures glue seams will not break down.
4. Thick, flat foam, greaseless sealing ring ensures maximum contact with your airbox, while acting as a breathable gasket for increased air passage.
5. Fused outer and inner elements prevent dirt and grime from being lodged between layers. Trapped particles can restrict airflow and if dirt works its way into your engine, a pinhead-sized granule will gouge your small cylinder, piston and rings like a bullet.

### Twin Air Backfire Replacement Filter

Special backfire resistant layer of foam laminated to inside of filter.

### Twin Air Airbox Cover

The Airbox Cover prevents water and cleansers from entering your intake when cleaning the airbox.

- Manufactured from tough, durable ABS plastic.
- Rubber sealing ring is provided to insure a perfect, leak-free fit.
- To use, simply remove your air filter from the airbox and install the Airbox Cover with the provided mounting screw.

### Uni Filter Wraps

\$12.95-J

• Uni foam filter wraps are designed to fit tightly over your gauze or foam filter element. When OILED, the filter wrap will stop all dirt and sand and provides excellent protection against water and mud. When used DRY, the filter wrap is an excellent pre-filter that prevents dirt build up and extends the life of your original filter. Uni filter wraps will not restrict air flow and can be easily washed.

PART#	DESCRIPTION
582-1118	Fits over 3 3/4" O.D. X 7" Ht.
582-1155	Fits over 3 1/2" O.D. X 6" Ht.

### Uni Filter Foam Sheets

582-BF2

\$18.95-J

• Made from thick black coarse foam, designed to allow plenty of airflow while keeping your air filter clean  
 • 12" x 24" x 3/8" 30 PPI

### Uni Filter Air Box Filtered Air Vents

582-UFV6

\$14.95-J

• Increases pre-filtered air in air box  
 • Internal foam filters can be cleaned and re-oiled  
 • 6 per pkg

## K&N CRANKCASE VENT FILTERS

### Steel Base

Steel base crankcase vent filters have vent tubes added to their base. Filters consist of a one piece design with a rubber or chrome top. Filters with mounting studs can be mounted remotely, but require vent hoses and clamps. Filter mounted direct can be pressed into rubber grommets in valve covers. All base plates are chrome plated. Tubes are zinc.

*One Piece Design for Competition Use*

Size	Description	Vent Diameter			Retail

## TDR "HYPER TENSION" REEDS

- TDR "HYPER TENSION" reeds are made of the highest quality material available. This material is custom designed by TDR to give the best possible performance and have a long working life span.
- TDR "HYPER TENSION" reeds use a tension reducing spacer to reduce the bending resistance of the reed petal. This spacer allows the reed to open quicker. The quick response action of the reed allows the fuel-air mixture to enter the engine faster. With this faster intake action, there is an increase in throttle response and low speed performance.
