

HANDLE BARS

Carbon Fibre/Tapered Aluminum Handlebars

\$150.95-H

- 7075-T6 Heat treated aircraft tapered aluminum wrapped with a thin skin of Carbon Fibre
- Tapered walled aluminum flexes to reduce rider fatigue and arm pump
- Tapered wall construction offers the strongest snowmobile handlebar available.
- Carbon fiber wrap acts as a barrier between the grip heater and aluminum to allow grips to get hotter.
- Clamp surface is 1 1/8" and tapers down to 7/8" to fit controls and grips.
- 1 1/8" oversized clamp kit or risers are required to mount to snowmobile.
- Custom snowmobile specific bends offer more comfort than stock handlebars.

TCI Part #	Description	Width	Rise	Pullback
781-4102	Snow Carbon Tapered 10° Handlebar	800 mm	0 mm	10°
781-4104	Snow Carbon Tapered 15° Handlebar	743 mm	0 mm	15°
781-4103	Snow Carbon Tapered Race Handlebar	760 mm	3 mm Up Sweep	10°
781-4101	Snow Carbon Tapered Back Country Handlebar	740 mm	83 mm	14°

Tapered Aluminum Handlebars

\$ 89.95-H

- 7075-T6 Heat treated aircraft tapered aluminum.
- Tapered walled aluminum flexes to reduce rider fatigue and arm pump.
- Tapered wall construction offers the strongest snowmobile handlebar available.
- Clamp surface is 1 1/8" and tapers down to 7/8" to fit controls and grips.
- Black snowmobile bar pad included.
- 1 1/8" oversized clamp kit or risers are required to mount to snowmobile.
- Custom snowmobile specific bends offer more comfort than stock handlebars.
- Gunmetal color only.

TCI Part #	Description	Width	Rise	Pullback
781-4015	Snow Tapered 10° Handlebar	800 mm	0 mm	10°
781-4016	Snow Tapered 15° Handlebar	743 mm	0 mm	15°

**Angle Handlebar Risers**

\$77.95 pair - H

- Precision angle moves handlebars straight up from center of steering post.
- Offers increased comfort and feel for aggressive mountain riding or trail riding.
- Fits flat style steering posts only.
- Fits stock 7/8" handlebars.
- 6061 T-6 aluminum construction.
- Universal type design fits multiple applications.
- Simple bolt on design installs in minutes.
- Most snowmobiles will allow 2" or 3" of rise without extending cables or wiring.
- Anodized Silver or Black finish.

30° Fits: All Arctic Cat (except M-Series Chassis)
All Polaris (Except 2009)
Ski-Doo Rev and ZX Chassis
Yamaha Mtn Max , SX, SRX, Viper

15° Fits: All Arctic Cat M-Series and Crossfire Chassis
2009 IQ Polaris with flat style steering posts.

**Pivoting Handlebar Risers**

\$89.95 pair - H

- Dual pivoting adjustability allows you to position handlebars where you want them.
 - Inserts that allows risers to fit stock 7/8" handlebars or oversize 1 1/8" handlebars.
 - Extruded from 6061 T-6 Aircraft aluminum to resist bending or twisting.
 - Machined to reduce weight
 - Rise is measured from center to center.
 - Black, anodized finish
 - Sold in pairs
- * Check the length of the existing cables/brake lines to ensure proper fit - extensions may be required.
- * For use with pivot style steering posts or steering posts with adapter tubes. (See page 4)

Steering Post Pivot Tube

RSI Steering Post Pivot Tube

781-5400

\$14.95-H

- 5 1/2" tube converts stock flat style steering post to a pivot style steering post when using a pivoting style handlebar riser.
- Super strong Chromoly Steel.
- Clamps into stock handlebar clamps or any 7/8" handlebar clamps.
- Positions pivoting style risers on outside of stock handlebar clamps.
- Anodized black finish.
- * Double check handlebar clamping surface width to verify riser/pivot tube combination fits correctly.

Steering Post Pivot Adapter

STEERING POST PIVOT ADAPTER

- Converts a flat steering post to a double pivot style post.
- Simple bolt on design.
- Adds 3/4" of rise.
- Works with most 2 piece aftermarket risers.

APPLICATION	TCI PART#	RETAIL
Arctic Cat	781-5401	\$24.95-H
Polaris	781-5402	\$24.95-H
Ski-Doo (Except Rev)	781-5403	\$24.95-H
Ski-Doo Rev	781-5405	\$24.95-H
Yamaha	781-5404	\$24.95-H

Steering Post Offset Adapter Kit

* Since these pivot adapters put the risers on the outside of the steering post plate the widths of the clamping surface varies. Double check the clamp surface area width on your stock bars to make sure it is wide enough for the risers to clamp down on a flat surface and not into the curve of the handlebar. If the clamping surface is too wide for your stock bars you will need an RSI offset adaptor clamp kit.

Clamp Surface Minimums for RSI Risers:	Arctic Cat - 116 mm	Polaris - 116 mm
	Ski Doo - 110 mm	Yamaha - 122 mm

Silver Handlebar Clamp Kit

RSI STEERING OFFSET ADAPTER KIT 781-5406

\$41.95-H

When using a RSI Pivot Adaptor and RSI Pivot Risers on a snowmobile with a flat style steering post, the Pivoting Risers often are positioned too wide to clamp on the stock handlebars properly. It make the Pivot Risers want to clamp on the bend portion of the handlebar which is not acceptable. These offset clamp adaptors will re-locate the handlebar clamps to the stock location and allowing you to use the RSI Pivoting Risers and Pivot Adaptor together on a flat style steering post with your stock handlebars.

- Allows stock handlebars to be used with the RSI Pivot Risers and RSI Pivot Adaptor.
- 6061 T-6 CNC Billet Aluminum construction.
- Sold in pairs with mounting hardware.

Black Handlebar Clamp Kit

RSI Oversize Handlebar Clamp

Universal clamps allow 1-1/8" bars to be clamped to Snowmobiles

- Works with PowerMadd and stock OEM Pivot style Riser Blocks as well as on Snowmobiles with flat style steering posts.

Handlebar End Hooks

706-2001

\$31.95-H

This unique device has been needed ever since snowmobiles have had a track and went over 25 mph! The handlebar Hook is designed to help prevent your hand from slipping off the handlebars. If you "hang out" on corners or side hill around mountains, the Handlebar Tool will help keep you on your sled with better control and safety.

- Aluminum Wedge (diameter 0.69")
- Kit includes 2 black aluminum hooks, 2 washers, 2 bolts

**RSI Handguard Mounts**

710-3026

\$60.95-H

- Universal billet handguard mounts fit a wide variety of handguards
- Anti-Spin clips included prevent handguards from spinning down from hard bumps.
- Powder-coated black
- 2 piece handlebar clamp design installs in minutes.
- Offset angle positions handguards out so ample room is available when side hilling or reaching off the end of the handlebar. Prevents wrist hitting guards.
- Sold per pair

**SPI Handguard Mount**

706-7899

\$32.95-J

Fits SPI and Sno Pro Handguards

**SpeedGuard Chrome Hand Guards**

\$122.95-H

- Ride all day in thin gloves without suffering from popsicle fingers
- Aluminum mounting hardware allows hand guards to be infinitely adjustable.
- Custom molded from super-tough HDPE material.

Please see our Essential Catalog for more hand guards
