AIR INTAKE TUBES

Universal Air Intake Tube for all Mikuni VM Models

- Aluminum spigot snowmobile carburetor
- Chrome finish body with screen cover prevents foreign objects from entering the carburetor.
- Includes stainless steel clamp to fix it over carburetor.

TCI Part #	Carb	Length	Retail
598-9804	VM	2.775" (70mm)3.5"	\$14.85-J

TOOLS

AAEN Buret 860-14760 \$206.95-F

- All plastic unbreakable Buret measures head volume in cc's.
- Used by engine builders to calculate compression ratios and equalize heads
- Used by engine builders to calculate compression ratios and equalize heads.

Mikuni Pocket Tuner 560-MK550 \$8.95-J

- Handy slide calculator which can be used to determine the required jetting changes due to changes in altitude and /or ambient temperature.
- For both 2 & 4 stroke engines.
- Has a guide for determining rich or lean carburetor conditions.
- For both 2 & 4 stroke engines.
- Used by engine builders to calculate compression ratios and equalize heads.

Uni Sync 560-027 \$83.75-J

- Scientifically engineered precision instrument which provides a visual method of balancing carburetors accurately, assuring the ultimate performance from multi-carburetor engines.
- Will eliminate the guess work and save setup time.
- An indispensable tool for professionals, mechanics and racers.

Mikuni Tool Kit 560-404 \$41.95-J

- Tool kit has all the tools needed to work on all Mikuni carburetors. Comes with a carrying case.

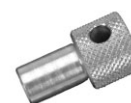

Main Jet Remover Wrench 560-1876 \$2.30-K

- Special tool for removing & replacing Mikuni main jets.

Main Jet Wrench 560-403-2 \$7.95-J

- Special tool for removing & replacing Mikuni main jets.

TOOLS

Motion Pro Jet wrench

\$9.95-J

- Fit virtually all jets
- Available in 6mm round, 6mm hex and 88 round size
- Rubber cap holds a few spare main jets for quick changes
- Skin packed 1 per card

6mm Hex	722-8023
8mm Round	722-8024
6mm Round	722-8025

Jet Tube Holder

560-1880

\$31.95-J

- Stores 10 main jets in one end of protective aluminum tube. Other end is a convenient jet tool.

Main Jet Carrier

- Stores 22 main jets in a molded neoprene rubber carrier
- Jet removal tool included for Mikuni models

Mikuni Hex Jets	Black	560-1874	\$4.50-J
Mikuni Hex Jets	Purple	560-1872	\$3.50-J
Keihin Hex Jets (NO JET TOOL WITH KEIHIN)	Black	560-1878	\$7.70-J

560-9801

Jet Box

560-9801

\$9.95-H

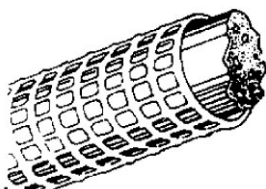

- 21 compartment storage bin, great for holding jets and other miscellaneous small parts.
- Made of tough injected polycarbonate resin.
- 10 x 7 x 1½ in.

Pocket Size Jet Box

560-9803

\$4.15-H

- 6 compartment box with hinged lid.
- Made of tough injected polycarbonate resin.
- 6" x 3.5" x 1"

Getting water in your fuel tank is virtually unavoidable.

* "Parking your sled in a heated garage - like a service shop, or having a rapid temperature fluctuation such as a chinook wind or a mid-winter mild spell can generate enough condensation to cause an ice clogged main jet. If you don't use some means of fighting water in your fuel, you are running on thin ice (ha)." - Supertrax Magazine

Sta-Dri Water Eliminator

830-100

\$10.25-J

- Eliminate water with the STA-DRI water cell.
- Not a messy fuel additive or an expensive water separator.
- Absorbs the water in the fuel tank, eliminating fuel contamination, tank rust, algae, filter blockage, engine failures, and other water related problems.
