

AAEN ROLLER CLUTCH COMPONENTS FOR ARCTIC CAT

4-STAR PRIMARY ROLLER CLUTCH 210-3002-600 \$1369.95-F

Sliding friction is eliminated by replacing the sliding buttons with rollers. The 4-Star clutch has four machined roller passages. The four rollers are mounted on a special billet spider designed to run in the roller passages. Smooth clutch engagement, instant speed changes, higher efficiency, less belt wear and cooler running belts are the rewards. The billet cover incorporates an adjustable engagement speed mechanism.

- Rollers eliminate button friction
- Super-smooth engagement
- Quicker and smoother back shifts
- Adjustable engagement speed billet cover.
- Fits Arctic Cat Thunder Cat, ZR, ZRT and Wildcat

Replacement Roller with Bearing 210-2001 \$32.95-F
