

SKID PLATES

**It is highly recommended that the location be verified before drilling into any*

The Holeshot, #1 name in snowmobile skidplates!

Holeshot's original 3-rib design combined with heavy gauge HMW (High Molecular Weight Polyethylene) material provides superior protection against rocks and other obstructions hidden in the snow. Holeshot Skidplates offer the best fit, the best protection and the best colors for Polaris, Yamaha and Ski-Doo snowmobiles.

Holeshot Skid Plate Colors

Yamaha Pro Action Chassis

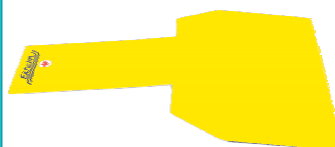

Polaris Edge Chassis

Ekholm

These Canadian made skid plates use 1/4" UHMW (Ultra High Molecular Weight) plastic - the toughest plastic on the market today! Give your machine the protection it deserves

** Please see the windshield section of the TCI catalog for a listing of chassis..*
