PLASTIC SKIS

PPD X-TR PLASTIC SKIS

Unique design features a three keel system. The front of the ski is a tunnel design for straight line stability, but unlike a tunnel ski it has a "trailing" carbide behind the pivot point for increased bite on corner. All round great ski for Trail riding. Turns aggressively for excellent cornering. Great floatation for Mountain riding. Has a new and improved handle for easy gripping!

- Weight - Complete with carbide 5.15 lbs.
- Length 40"
- Width 5.5"

Must order both skis and mounting kit.

End
