### Motion Pro T-Handle Sockets

- Motion Pro Inc.'s new set of T-Handle Sockets are great for shop and home mechanics alike. They feature chrome vanadium tool steel deep 6 point sockets with a carbon steel "T" style handle. These sockets are finished in Nickel-Pewter, and they bring a new look and feel to the traditional T-Handle socket. The deep sockets allow for nuts to be driven over long threaded bolts. The hex socket extends only part of the way inside, allowing the nut to be held in the socket. The outside diameter of the sockets are kept as slim as possible allowing them to fit in tight areas. Motion Pro Inc offers a lifetime warranty on these T-Handle sockets.
